

## Davidson Family Letter 1998-99

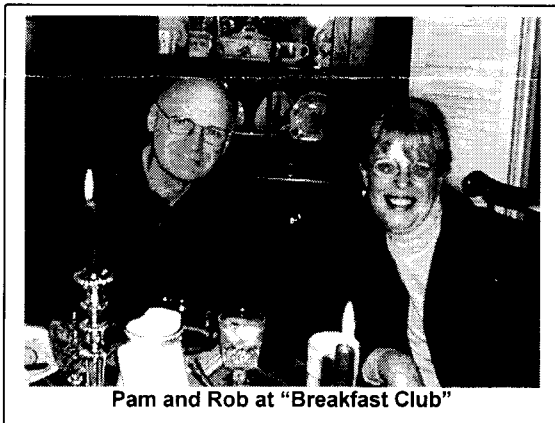

"So Big!" Eva at 11 Months

The Davidson family, Flourtown branch, grew in 1998 with the birth of **Eva Grace** to proud parents **Eric** and **Kristen** in Boulder. Eva was born at home with the assistance of a mid-wife and her father and mother. Kristen has been taking graduate courses at the University of Colorado (UC) to gain her competency in Spanish. Eric loves being a father and continues his bow & arrow hunting and his construction business. **Ryan** has moved nearby to Eric and is working and learning the plumbing trade and has taken some classes at UC with his friend Emily. The entire Boulder crew including Emily stayed with us over the Christmas holidays. **Cora**, Pam's mother, celebrated her 90<sup>th</sup> birthday in October and our whole family was together (see picture) the weekend of Dec. 20 to celebrate our nephew Fred's wedding (Oct. 3<sup>rd</sup> in Las Vegas). **Andrew** has moved into an apartment in the building where he works in Philadelphia. He is active in the web and graphic design business as well as spinning on Friday nights at a trendy club near Penn's Landing. **Kent's** company Differential has received favorable investments and increased sales of their secure web file transfer system. He was recently

promoted to VP of Advanced Research with a staff of 15 reporting to him. He attended a wedding in Boston in June of two college classmates and renewed the acquaintance of another Dartmouth classmate, Shannon Robards. The 5<sup>th</sup> reunion of their Dartmouth class followed. Because of many business trips East for the company they kept in constant contact and on January 1<sup>st</sup>, 1999 he proposed. A summer wedding is planned. **Shannon** is a film editor for the renowned Ken Burns (Civil War, Baseball, etc.) in Walpole, NH. We think this is a good match. **Pam** has figured out that this fall she shot over 10,000 pictures in a three-month period. She made the long drive to Boulder in March to meet Eva (plus get pictures). In violation of all logic, I am going to boast about our successful diet this year. In June good friends shared with us the WW 1-2-3 plan materials. Pam & I started eating more vegetables and fruits and less fat. By November we each had lost 25 pounds and have kept it off to date! We remain active at our beloved church, St. Thomas' Whitmarsh, where we have both signed up to do prison tutoring this spring. **Rob** finally made it to Sewanee the University of the South (after completing the EFM course in 1990) at the end of June for a course in the DOCC program, which is running currently at church. **Pets:** Our menagerie now consists of Bedford (English Setter), Shadow (toy poodle), 3 cats: Tigger (17), Mr. Bean (12), and Sugar (5) plus five chickens (we have a lot of egg based meals). Another car-trip West to Colorado after Easter is in the plans for Pam who is going to get back to flying sometime soon?

Pam and Rob at "Breakfast Club"

Happy Valentines Day 1999  
from all of us!

May you enjoy God's Abundant  
Blessings this year
